SPECIFICATIONS:

Our Commitment

At ClaroLux[®], our goal is to set the standard in the landscape lighting industry. We are happy to be the exception, not the rule. Every day we challenge ourselves to create new and innovative products that can help revolutionize the low voltage lighting industry. We pride ourselves on being innovative, passionate, and dedicated to setting the standard. What you will find when you purchase from ClaroLux Landscape Lighting[®] is that the norm is never good enough. We believe in our mission, we believe in ourselves, and we believe in our products. This is why our products come with a structural lifetime warranty.

Surface Mount

Manufactured from US aircraft grade aluminum. The SM100 surface mounting bracket was designed with the installer in mind. The aluminum bracket has inset mounting holes and a wire slot so that the bracket can easily be attached to any surface.

Universal Adjustable Plate

Manufactured from US aircraft grade aluminum. The plate has a 1/2" NPS thread so the plate will attach to any ClaroLux[®] luminaire. The universal adjustable plate also contains a wire slot in the plate for easy installation.

Electrical Requirements

A remote 12V luminaire and transformer required, may be ordered separately from ClaroLux[®]. The GM100 is a luminaire accessory only. Recommended voltage range for 12V halogen lamps is 10.8V - 12V. Recommended voltage range for Brilliance 12V LEDs is 10V - 14V (12V is ideal).

Mounting Hardware

Mounting hardware, screws and anchors are not included.

Wiring Slot

The SM100 surface mount comes with a wire slot so the mount can be mounted onto hard surfaces where the wire has to be ran out of the side of the mount. The universal adjustable plate comes with a wiring slot to allow for easy installation. There is no need to feed the wire through the universal mounting plate.

Finish

Available in bronze powder coat finish (Custom colors are available; please call 336-378-6800 for details). ClaroLux's[®] bronze finish was created especially for ClaroLux's[®] aluminum line.

Warranty

ClaroLux's[®] 15 Year Warranty (please see warranty for more details).

Manufacturing

Proudly designed and manufactured at ClaroLux's[®] manufacturing facility in Greensboro, NC, USA.
